## AVIATION SERVICE DOCUMENT NOTIFICATION

**TO:** G1000® Flight Deck Owner and Operators  
**DATE:** March 5, 2024  
**SUBJECT:** G1000 System ID Tool

### COMPLIANCE

Recommended: Compliance with Service Bulletin 0736 is recommended before March 12, 2024. Failure to do so will result in loss of aviation databases.

### PURPOSE

Garmin has identified an error associated with G1000 system software upgrades that sometimes results in an invalid System ID. An invalid System ID can be identified as either being "00000000" or "20000000". The G1000 System ID can be verified on the AUX-System Status Page (Figure 1).

### NOTE

The G1000 System ID is only displayed on GDU's with GDU software version 6.00 or later.
