

SERVICE ADVISORY

NO.: 1118 Revision A

TO: Owner/Operators of Garmin Integrated Flight Deck Systems

DATE: May 3, 2011

SUBJECT: Momentary failure indications (Red-X) can occur when sorting stored flight plans

AFFECTED PRODUCTS

All Garmin G900X, G950, G1000, Cirrus Perspective®, and Embraer Prodigy™ systems with GDU Software version 12.00 and all prior versions are affected.

DESCRIPTION

Using the 'Sort By Comment' function on the Flight Plan Catalog Page Menu may cause Red-X failure indications (Figure 1) to appear momentarily in some data field(s), including primary flight data fields, on the PFD(s)/MFD. The auto pilot may disconnect or cause pitch changes to capture changes in airspeed during this condition.

Figure 1. Red-X example

PILOT ACTION

Do not use the 'Sort By Comment' function to sort stored flight plans during flight.

RESOLUTION

Garmin plans to address this issue in a future software release.
