

SERVICE ADVISORY

NO.: 1139 Rev A

TO: Owners/Operators of Garmin G600/G500/G500H Systems

DATE: August 12, 2011

SUBJECT: G600/G500/G500H Systems Auto-Slewing

PRODUCTS AFFECTED

G600/G500/G500H Systems with GDU 620 Software Version 6.00 or earlier.

DESCRIPTION

The HSI course pointer auto-slew feature does not automatically select the final approach course for certain approaches. (Refer to the appropriate Pilot's Guide for a detailed description of the auto-slew feature.) For affected approaches, the HSI course pointer will remain at the previously selected VLOC course; the pilot must manually select the final approach course.

The following approaches are affected:
