

## **SERVICE ADVISORY**

**NO.: 1409 Rev A**

**TO:** Owners/Operators of Garmin GTN 6XX/7XX Units

**DATE:** March 14, 2014

**SUBJECT:** GTN 6XX/7XX Occasional Momentary Screen Flicker

---

### **AFFECTED PRODUCTS**

This issue affects GTN 625/635/650 and GTN 725/750 Units with Main Software Version 3.00 through Version 5.00.

### **ISSUE**

During normal operation, a portion of the GTN display may occasionally exhibit a momentary flicker. This can occur on any page of the GTN series unit, but does not affect the operation of the unit.

### **RESOLUTION**

Garmin plans to correct this issue in a future software release.
