

## SERVICE ADVISORY

NO.: 1516 Rev B

**TO:** Owner/Operators of G1000 equipped Diamond DA 40 and DA 40F aircraft

**DATE:** May 6, 2015

**SUBJECT:** Loss of Engine Indication System (EIS)

**REVISION B:** Clarified products affected list and added reference to Garmin STC Service Bulletin 1534

### PRODUCTS AFFECTED

G1000-equipped Diamond DA40 and DA40F aircraft equipped with the following system software versions are affected:

- 0321.24 or earlier versions
- 0369.13 or earlier versions

### ISSUE

Loss of EIS may occur during extended (> 5 seconds) engine shutdowns during flight (see Figure 1). EIS immediately appears after engine restart.

### NOTE

The engine will restart normally without the EIS information.

Missing EIS

Figure 1 – Loss of EIS Example

### RESOLUTION

Contact a Garmin dealer for inclusion of Garmin STC Service Bulletin 1534.

### NOTE

Garmin STC Service Bulletin 1534 does not cover software version 0321.24 for corrective action.
