

SERVICE ADVISORY

NO.: 1583 Rev A

TO: G500/G500H/G600 Owners of Record

DATE: December 15, 2015

SUBJECT: Connex WorldWide Weather METAR and TAF

PRODUCTS AFFECTED

G500/G500H/G600 systems with GDU 620 Software Version 7.00 or 7.01, interfaced to a GSR 56 Iridium Satellite Transceiver are affected.

ISSUE

Connex WorldWide Weather METAR and TAF information for airports located outside of the box below will not display on a GDU 620 loaded with Software Version 7.00 or 7.01.

PILOT ACTION

Rely on other sources for weather data.

RESOLUTION

A future software release will correct this issue.
